For anyone with some experience playing Pragmatic Play slots, booting up Drago - Jewels of Fortune will surely offer a 2 surprise or two. Visually, it looks strikingly different from their usual stuff, almost as if produced by a different studio 2 altogether. After a line of somewhat mediocre games, this step up in quality is a welcomed one.

Drago - Jewels of 2 Fortune is a fantasy slot that offers a couple of interesting features alongside impressive potential. There are dragons involved, but 2 not Asian inspired as you might expect from this provider, but with more of a cartoonish touch. Drago also manages 2 to keep the intrigue rolling due to its unusual reel formation and gameplay that can work well to generate some 2 uncommonly large payouts - provided you aren't incinerated by a mouthful of dragon fire.

The game takes place in a dimly 2 lit cavern, littered with treasure while a dragon watches over his coins to the side. This purple dragon, presumably Drago, 2 though it's not made explicitly clear, sways like he's under the influence of something. Then again, it would be creepy 2 if he just stood, staring motionless at you. It's a classic dragon sitting over his riches scene, capped with a 2 powerful fantasy infused soundtrack adding extra atmosphere.

The game grid is an interesting one, made up of 5 reels, in a 2 5-4-4-4-5 configuration. The first and fifth reels possess an extra row, with a golden frame around each corner position. These 2 special corner positions are the key to triggering the features - more on this later. Along with the larger than 2 usual reel format is a larger than usual number of win ways. Winning combinations are formed of three or more 2 matching symbols, from the first reel, left to right. Winning symbols can land in any row, which provides 1,600 ways 2 to win, but are easy enough to follow along with. The home screen brings up Pragmatic's ever-helpful volatility meter that lets 2 players know exactly what they are getting in to before pressing play. In Drago's case, it scores 4.5/5 which might 2 not be as volatile as it gets, but is still a high rating all the same. A figure that will 2 find universal appeal is the default RTP, which at 96.5% is comfortably above average.
