As apostas internas (apostas interiores) são apostas

colocadas na porção interior da grelha numerada da mesa. Ao jogar uma aposta 5 interna,

isso significa que está a apostar nos números de 0 a 36. Na variante americana do jogo,

há o 5 "duplo zero" adicional, que também é uma aposta interna.

Gonzalo García-Pelayo's winning racehorse is named Going Wrong, and bets are 12 to 1 just

before the race at the tracks in Cheltenham, UK. The 450 euros that he has put down on the

jockey in the green-striped shirt is part of a "private investment fund" which relies on tipsters and

earns him a 30-percent annual return. Just then, his cellphone vibrates: it's a text from another

tipster. In the match between Fernando Verdasco and Juan Martín del Potro, he should bet against the Argentinean tennis player winning more than four games against the Spaniard. García-Pelayo then explains that he is in the process of creating a new formula for tennis bets based on the theory that if the pre-match favorite loses the first set, he or she will win the second. If his studies prove conclusive, he will program it on his computer, under "Favorite loses first set" so it automatically launches.

The race starts at Cheltenham. García-Pelayo leans back on his office chair, watching the screen with the remote in his hand. It's mid-afternoon on a Tuesday in March, and the gambler is dressed in cords and checkered shirt. His white beard and hair are disheveled, his reading glasses hang from his neck. His desk is covered in several layers of dust and papers scribbled with formulas and numbers - their degree of yellowing is a like a scale that reflects the strata of his life as a gambler.

This is more or less the position in which he spends his days at home in Madrid, although he does inch closer to the screen in order to determine the exact placement of his horse (Going Wrong seems to be in third place, maybe second; it's hard to tell on the small screen).

At times he gets up to check the other four computers he has placed in various rooms in his house. They are all buzzing with their own activity, offering players from all over the planet bets that he has programmed. An electronic cry of "Goal!" can be heard every so often from one of them, announcing a new development in the ongoing Debrecen-Kaposvár game in the Hungarian League. The software immediately updates itself, offering 2.6/1 that it will be four-goal match. Soccer is the axis upon which García-Pelayo's private fund rotates. His computers offer 200 bets daily, from which he expects to earn some 15,000 euros a month, part of which will go to the investors and the remainder to a retirement fund. It took him a year to study how and what to program: "a degree in sports betting," he calls it. Though he will be 65 in June, there are a lot of unexplained gaps on his résumé.
